Auto Delivery in Wichita

The Weaver Gardens Company

ARE GROWERS OF GOOD PLANTS—Of many varieties of Vegetables as well as Flowers that will produce wonderfully, and profitably for you with any reasonable care. Our secret in growing productive money making Plants is mainly choosing the finest varieties of seed to be had, which produce crops earlier, heavier, and of better quality, and growing them with sash, not Hot House Grown. This is important as Sash produces strong hardy plants.

In growing Vegetables or Flowers, the right start is the right kind of plants, good strong plants from fertile seed delivered to you in live growing condition is your first assurance of a paying crop of good Vegetables, and beautiful decorative Flowers and Vines.

Our plants come to you in LIVE GROWING CONDITION to be planted at once, or held, ordinarily for several days if desired.

Our prices includes Packing Charges and all mail or express charges necessary to deliver Plants or Bulbs prepaid—THIS IS A BIG SAVING TO YOU.

Please remit with order, as our profits are too small to keep books, and it is not practical to ship Plants C. O. D.

ABOUT SHIPMENT—During planting season ordinarily, we ship not later than the day following receipt of order, or at any particular date requested, or if when ordering you will state "Ship when seasonable," we will endeavor to send plants when rain is generally predicted by the U. S. Weather Bureau for your locality, but no further responsibility can be taken.

ABOUT VARIETIES—Our list includes all Standard and newer sorts, and if selection is left to us, you will receive the best varieties for your locality, otherwise, we reserve the right to substitute a similar or better kind for any variety ordered that might be temporarily exhausted at that time. Our idea at all times being to give you plants or bulbs worth the price remitted.

WRITE NAME AND ADDRESS VERY PLAINLY.

"I didn't know I was feeding so much worthless livestock."

Death-Klutch Traps

For Gophers

A single night's catch of one hundred two Gophers caught in a single set of one hundred fourteen **DEATH-KLUTCH TRAPS**.

Gophers travel their runway at intervals to see that, "All's well." When light is seen entering the run, the animal at once plugs the hole by pushing dirt into it. The dirt passes over the trap, but, when the animal's nose touches the trigger, the jaws close with a Death-Klutch upon the body.

Death-Klutch Traps are used Everywhere because:

1. When set the Death-Klutch trap allows **Light**, the best possible **Bait**, to enter runway.
2. It takes less time to set a **Death-Klutch Trap** than any other designed for gophers.
3. Loose dirt will not trip this trap.
4. Gophers cannot plug trap's working mechanism.
5. Even though completely buried, a "Death-Klutch" will spring and catch a burrowing animal.
6. Once tripped it has a Death-Klutch upon the animal.
7. Light weight enables trapper to carry large number.
8. **Death-Klutch** is the **only** trap that cleans all gophers from the field or garden. It gets even the most wary ones.

Death-Klutch Traps—Delivered by mail prepaid, each, 50c; 3, \$1.25; 6, \$2.25; dozen \$5.

Agents make big money selling Death-Klutch Traps. Special inducements.
